Anti-bacterial/Anti-fungal	Will not support microbial growth including: - Aspergillus Niger - E.Coli - Altinata - Salmonella - Penicillium - Staphylococcus Aureus - Cladosporium Herbarism
Care and Maintenance	<ol style="list-style-type: none">1 Routine soap and warm water sponging is effective for ordinary soiling.2 Fresh stains both water and oil based are easily removed using most water based household spray cleaning agents.3 Antiseptic cleaning agents can be used and more stubborn stains may require a safe solvent such as Isopropyl Alcohol or Mineral Spirit.4 A half cup of household bleach for 5 litres of water can also be used as a useful disinfectant.5 Best cleaning method is 'wipe and dry' technique. Full immersion is not recommended.6 Do not dry clean.

NB: We cannot guarantee an exact shade match against samples or between production batches, slight variations are inevitable with the print process and on the different base cloths. Shrinkage approx 3%. Due to legislation, test methods and standards, specifications may differ from the above, please refer to our price list or call the sales desk for confirmation of the most current specifications
